

SECURITY CONSULTING & RISK MANAGEMENT SOLUTIONS

*Securing What Matters Most — People,
Assets, and Reputation.*
Because true security is proactive, not
reactive.

Overview

Shilpa Advisors provides comprehensive security risk assessment, system design, and audit services to safeguard organizations from physical, operational, and geographical threats. Our proven 3M Model — Man, Machine & Method ensures balanced, layered protection tailored to your environment.

The Challenge

Organizations face evolving threats — theft, vandalism, data breach, and internal lapses. Common weaknesses we identify:

- Inefficient guard deployment
- Poor surveillance coverage
- Lack of standardized response procedures
- Outdated risk monitoring

Our Process

- **On-Site Risk Survey:** End-to-end audit of security controls & site layout
- **Threat Profiling:** Evaluate geographical, environmental, and operational risks
- **Security Blueprint:** Design an optimized 3M deployment plan
- **Implementation Oversight:** Support installation, training & vendor management
- **Performance Audits:** Monthly reviews (first 3 months) + biannual re-evaluations

Deliverables

- ✓ Security risk report & vulnerability matrix
- ✓ 3M manpower & equipment deployment plan
- ✓ SOPs & emergency response manuals
- ✓ Evaluation reports for compliance audits

Results

- Reduced security incidents
- Improved incident response time
- Cost-optimized protection model
- Peace of mind through measurable control

Protect Your People. Strengthen Your Premises.
